

	What is Changing	What is Staying The Same
Scheduling	Nothing	Continue to ensure there are at least 30 min between your reservation and those before and after yours.
Communicating names and arrival/ departure times	Nothing	Continue to notify Noreen 48 hours in advance: Names of all researchers attending the scan, the participant's name, and the name(s) of any companions, and arrival/ departure times.
Masks	Nothing	Continue to wear masks (surgical, N94, KN95, KN94; cloth not sufficient) in JLGSC at all times. This applies to researchers, participants, and companions.
COVID screening	Nothing	Researchers must have a green pass. Participants and companions must complete an attestation form at Security.
Escorting	Participants still must be escorted at all times in JLGSC, <b>but the escort does not need to be David Gultekin or another MR Platform member. The researcher is the escort, and is ultimately responsible</b> for ensuring the participant is accompanied at all times while in JLGSC. If multiple researchers from a lab are here for a scan, the most- senior person on the team is responsible.	Participants still must be escorted at all times in JLGSC.
COVID cleaning	Surfaces in the MR space must still be cleaned after the scan according to the checklist, <b>but now this cleaning does not need to be observed by David Gultekin or another MR Platform member. Leave the completed form on the counter in the console room.</b> I will follow up if I do not see the form.	Continue to clean surfaces in the MR space after the scan according to the checklist.
